## Historical Society Of Litchfield Trivia Quiz

**December question:** The saw used in early water-powered mills was called a "frame saw". How did it differ from saws used in today's saw mills?

**November question:** An 1820's Town Meeting record describes a road as follows, "From John Patten's to Potter Mills" In today's Litchfield, that road would consist of what three present day roads? answer: South Adams, North Adams, and Small Roads. ## Litchfield Transfer Station

Another project completed: Canty Construction Company completed ground construction in grading the level of gravel in front of the HAZMAT/Swap Shop so the rain water will no longer flow into this building. Canty then added gravel to the area where water would collect on the roadway just beyond the Oil Storage Building. This will allow the water to flow away from this area and the brush area. The last part of this project was to address the problem of not being able to load the leaves into a 13'2" high trailer (frontend loader could not get the loader bucket over the high walls of the trailer). Canty constructed a new roadway adjacent to the existing roadway to the leaf area. Canty also used Cement blocks and gravel to construct a ramp that would allow the loader to go up the ramp putting the loader at a height which would allow the loader bucket to put the leaves into the high trailer. Well done Canty Construction Company!

### Litchfield Broadband Committee

With grant funding awarded to us from ConnectMaine, Casco Bay Advisors was contracted to develop a Broadband Planning Report for Litchfield. This report has been completed, and examines existing high-speed broadband assets within the town limits, where gaps in coverage may exist, potential solutions, costs to fill those gaps, as well as recommendations for next steps. Brian Lippold of Casco Bay Advisors will be joining the December 14, 2020 Select Board Meeting via Zoom video conference to present a report summary and to answer questions. This meeting starts at 6:30 PM. Mark your calendars to attend the meeting or join via Zoom call to listen in and/or ask questions. The link to the Zoom call as well as an electronic copy (PDF file) of the report will be posted on the Town of Litchfield website (<https://www.litchfieldmaine.org/>) before the meeting. Help us shape the future of broadband here in town by getting involved in these meetings. If anyone has broadband issues that need to be addressed by this initiative, please reach out to the Broadband Committee by sending us an email note to [lbell248@gmail.com](mailto:lbell248@gmail.com). ### Conservation News

To share project updates, local events, and other conservation news, we have created the Facebook page 'Litchfield Maine Conservation Commission'. To view the page, simply enter <https://www.facebook.com/LCC04350> in your internet browser. On **New Year's Day** the Conservation Commission is sponsoring a **snowshoe walk** from 12noon to 2 pm at the Small Burnham conservation easement on the southern end of Pine Tree Road. We will park along the side of the road and explore the pond areas usually closed to the public, allowable since the ground is frozen. We will have a fire to gather around at the finish. We are not limiting attendance, everyone is welcome. We will still stay 6 feet apart for the entire walk and everyone **MUST** wear a face mask. If we get more than 12 people, we will split into two groups, one walking one loop while the other group walks different loop. We will meet even if it is very cold so dress accordingly and bring your own snack or \ and drink. If wet precipitation is forecast the walk is canceled. Please join us, all walks are free and open to anyone who likes nature, enjoys walking or snowshoeing, and wants to see new places. We hope you will join us. For any questions check the new Litchfield Maine Conservation Commission page on Facebook for updates. Thank you.
