

Transfer Station Update

June 13 2022

- 1) We have issued 2133 stickers.
- 2) We have had 1933 items taken from the swap shop since it opened. Residents are positively commenting on the open layout. We have had one of the volunteers step down. Many thanks to Chris for his time and effort.
- 3) The leaf and brush piles are still piling up.
- 4) We had to empty both bulky containers and a cardboard container this week. The cardboard seems to fluctuate. We didn't have to empty it last week. We are being more diligent about "packing" the cardboard in. We had a packing tool made and it seems to be doing a good job.
- 5) The paper, tin, and glass containers have been emptied.
- 6) The field in front of the Pine Tree road cemetery has been bush hogged. Many Thanks to Justin Mooers for the donated use of his trailer to get the tractor over to the cemetery. It was a great help in accomplishing this task.
- 7) We have started bush hogging the "mound". We had the blades sharpened and Justin and Larry said that the sharpening was much easier. Thanks to Tom Woods for volunteering his expertise.
- 8) We have T-111ed the bottle shed. Thanks to the Tacoma Lakes Association for their donation.
- 9) We have filed the State's annual DEP report last week. Next year it will be done a lot earlier.
- 10) We have contacted the state DEP training person. He has sent their "core" power point topics for us to use. There is no "in-person" training right now. We are viewing the course topics and becoming familiar with the material.
- 11) We are starting to prepare for the cement pads to be done in order to move the three containers over. The stumps need to be removed and we need to get proposals for the cement work. Hopefully we can accomplish this before winter.

Respectfully Submitted

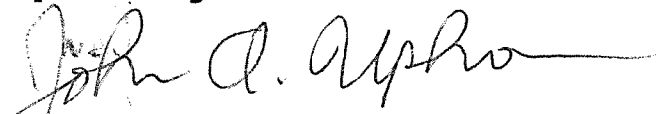

John A. Upham

Transfer Station Update

June 6 2022

- 1) We have issued 2119 stickers.**
- 2) We have had 1531 items taken from the swap shop since it opened. Residents are positively commenting on the open layout. We have had one of the volunteers step down. Many thanks to Chris for his time and effort.**
- 3) The leaf and brush piles are still piling up.**
- 4) We had to empty both bulky containers and the metal container this week. The cardboard seems to fluctuate. We didn't have to empty it this week. We are being more diligent about "packing" the cardboard in. We had a packing tool made and it seems to be doing a good job.**
- 5) The paper, tin, and glass containers have been emptied.**
