

Transfer Station Update

July 25, 2022

- 1) We have issued 2179 vehicle stickers.
- 2) We have had 4307 items taken from the swap shop since it opened.
- 3) The Public Works have poured the first pad for the new paper, tin, and glass container area. Many THANKS to Larry and his crew for doing the work last Thursday. It was probably the hottest day so far this year. We are getting many positive comments from the residents about the projects that are being done at the Transfer Station.
- 4) We have adjusted the traffic pattern to help with the temporary setting of the paper, tin, and glass containers. It is working very well. People are having to go up around the metal container rather than going straight through.
- 5) It was slower than the past few weeks. We think the heat had something to do with it.
- 6) This week we had to have one cardboard, both bulkies and the metal containers emptied this week.
- 7) We are looking into getting a new door for the paper container. The existing is rusting out across the bottom.
- 8) We are looking for a replacement for the bush hog. The old one is having many issues and we feel that it is time to replace it. We don't have the knowledge and tools to keep it going. We have found one that is around \$1900.

Respectfully Submitted
