

Transfer Station Update

August 22, 2022

- 1) We have issued 2219 vehicle stickers.
- 2) We have had 5030 items taken from the swap shop since it opened. We have started discussing the closing date of the Swap Shop. It looks like it will be around the end of September to the middle of October.
- 3) We had to have one bulky and the paper container emptied this week.
- 4) It is appearing that things are slowing down with less material being brought in to the Transfer Station.
- 5) We have ordered a door for the paper container. It should be arriving in about three weeks. Our hauler, Cody Kelley, is getting the door for us.
- 6) I have called the Ozone Saver people to come take the freon out.
- 7) The Public Works have poured two of the pads for the paper, tin, and glass containers. We are waiting eagerly for the third pad so we can move the three containers up. We have some residents that are still confused as to where those containers have been moved. We explain what is going on and point them in the right direction.

Respectfully Submitted
