

Transfer Station Update

June 27, 2022

- 1) We have issued 2147 vehicle stickers.
- 2) We have had 2599 items taken from the swap shop since it opened.
- 3) This past weekend was very busy all weekend. It was the busiest Sunday this year.
- 4) We had to have both bulkies, the plastic, and a cardboard container emptied this week.
- 5) We are continuing the weed whacking around the station.
- 6) The 5 mph sign at the gate is prominent now.
- 7) The paper container is filling up faster than anticipated.
- 8) We're starting to see more plastic bags in the plastic container. We would like to remind the residents that the reason we don't want bags put into the container is that it clogs the shredding machine when the plastic is processed. There is a trash can right at the opening of the plastic container to put bags in.
- 9) Thanks to the Public Works for coming down and crushing the bulky containers on Saturday. Extra Thanks to Greg for stepping up and cleaning up the brush and leaf pile on Saturday also.

Transfer Station Update June 21, 2022

- 1) We have issued 2139 stickers.
- 2) We have had 2179 items taken from the swap shop since it opened.
- 3) This past weekend was slower than we have seen in the past couple of months. We only had to empty one cardboard container and one bulk.
- 4) We have started doing some weed whacking around the station.
- 5) Our speeder that I have discussed with Kelly earlier came in Sunday. Justin and Larry said she did pretty good about keeping her speed down the first time she came in. She left but forgot something. When she came back she was speeding. She came into the office and Larry and Justin could smell alcohol on her breath. We need to address her speeding in the Transfer Station. Perhaps a warning letter would help.
- 6) Everything else is progressing smoothly!
